EDUCATION

University of Waterloo

Waterloo, ON, Canada

- Master of Mathematics, Biostatistics, GPA 86/100
- Bachelor of Mathematics, Statistics, GPA 89/100

Aug 2025

Aug 2023

TEACHING DOSSIER

Teaching dossier available [online](#).

TEACHING PHILOSOPHY OVERVIEW

My teaching philosophy centers on delivering effective, student-focused instruction by combining subject knowledge, enthusiasm, and inclusivity. I aim to make abstract mathematical concepts accessible by linking them to real-life contexts and encouraging students to articulate ideas in plain language. To model engagement and persistence, I use handwritten notes to work through material step by step, inviting students into the process and fostering a collaborative learning environment. I emphasize respect and patience, supporting students at different learning paces and offering constructive, detailed feedback to guide improvement. Ultimately, I view teaching not only as transmitting knowledge but also as inspiring confidence, curiosity, and a lifelong interest in learning.

TEACHING EXPERIENCE

Probability (STAT 230)

Waterloo, ON, Canada

Teaching Assistant, University of Waterloo

May 2025 – Aug 2025

- Delivered tutorials to 40–50 students, clarifying concepts and solving problems.
- Graded assignments and exams, providing constructive feedback on students' assessments.
- Facilitated discussion forum, holding online office hour.
- Proctored tests and exams.

Applied Linear Models (STAT 331)

Waterloo, ON, Canada

Teaching Assistant, University of Waterloo

May 2025 – Aug 2025

- Graded assignments and exams, providing constructive feedback on students' assessments.
- Proctored tests and exams.

Statistics (STAT 231)

Waterloo, ON, Canada

Guest Lecturer, University of Waterloo

Mar 2025

- Delivered a guest lecture on Gaussian response models and model diagnostics to 28 students.

Mathematical Statistics (STAT 330)

Waterloo, ON, Canada

Teaching Assistant, University of Waterloo

Jan 2025 – Apr 2025

- Graded assignments and exams, providing constructive feedback on students' assessments.
- Proctored tests and exams.

Sampling & Experimental Design (STAT 332)

Waterloo, ON, Canada

Teaching Assistant, University of Waterloo

Jan 2025 – Apr 2025

- Graded assignments and exams, providing constructive feedback on students' assessments.

- Facilitated discussion forum, holding online office hour.
- Proctored tests and exams.

Probability (STAT 230)

Teaching Assistant, University of Waterloo

Waterloo, ON, Canada

Sep 2024 – Dec 2024

- Delivered tutorials to 40–50 students, clarifying concepts and solving problems.
- Graded assignments and exams, providing constructive feedback on students' assessments.
- Facilitated discussion forum, holding online office hour.
- Proctored tests and exams.

Mathematical Statistics (STAT 330)

Teaching Assistant, University of Waterloo

Waterloo, ON, Canada

Sep 2024 – Dec 2024

- Graded assignments and exams, providing constructive feedback on students' assessments.
- Facilitated discussion forum, holding online and in-person office hour.
- Proctored tests and exams.

Calculus III for Honours Mathematics (MATH 237)

Tutor, University of Waterloo

Waterloo, ON, Canada

Jan 2023 – Apr 2023

- Conducted one-on-one tutoring to clarify course material and provide problem-solving guidance.

PROFESSIONAL DEVELOPMENT

University Mathematics Teaching Techniques (MATH 900)

Faculty of Mathematics, University of Waterloo

Waterloo, ON, Canada

Jan 2025 – Apr 2025

- Obtained formal training in university-level mathematics instruction.
- Studied course design, lecture effectiveness, assessment strategies, and student engagement.
- Delivered peer-reviewed teaching sessions and a guest lecture to a live course.

Teaching Workshop - Teaching with Confidence (CTE1234)

Centre for Teaching Excellence, University of Waterloo

Waterloo, ON, Canada

Jun 2025

- Examined common causes of low teaching confidence among graduate instructors; explored mindset shifts and practical strategies to strengthen confidence and effectiveness in the classroom environment.

Teaching Workshop - Teaching Methods (CTE1217)

Centre for Teaching Excellence, University of Waterloo

Waterloo, ON, Canada

Jun 2025

- Explored the principles and benefits of active learning. Gained practical strategies and a toolkit of activities to increase student engagement, compare active learning with traditional lecturing, and design and implement interactive classroom activities.

Teaching Workshop - Teaching STEM Tutorials (CTE1111)

Centre for Teaching Excellence, University of Waterloo

Waterloo, ON, Canada

Jan 2025

- Focused on designing effective tutorials in STEM disciplines. Covered strategies for planning, running, and assessing tutorials with an emphasis on active learning and student engagement. Included hands-on development of tutorial plans and peer feedback.

Teaching Workshop - Giving and Receiving Feedback (CTE1106)

Centre for Teaching Excellence, University of Waterloo

Waterloo, ON, Canada

Jan 2025

- Explored effective feedback strategies for teaching, focusing on phrasing, timing, utility, and emotional impact. Developed practical approaches to enhance student learning and engagement through constructive feedback.

PRESENTATIONS

Mortality Modelling with Vanshing Jumps via Bayesian Inference Waterloo, ON, Canada
Topic: Managing Longevity Risk, University of Waterloo Jul 2025

- Delivered a graduate-level presentation on a published paper, summarizing findings and providing discussions on relevant papers.
- Conducted a formal peer-review process on the paper.

Analysis of Event History Data via Multi-State Models Waterloo, ON, Canada
Topic: Analysis of Survival Data, University of Waterloo Apr 2025

- Delivered a graduate-level presentation on a published paper, summarizing findings and providing discussions on relevant papers.

Analysis of Correlated Failure Times via Shared Frailty Waterloo, ON, Canada
Topic: Analysis of Longitudinal Data, University of Waterloo Apr 2025

- Delivered a graduate-level presentation on correlated failure times, summarizing findings and providing discussions on relevant papers.

Quantization of Large Language Models Waterloo, ON, Canada
Topic: Generative AI and Large Language Models, University of Waterloo Mar 2025

- Delivered a graduate-level presentation on quantization of large languages models, summarizing findings and providing discussions on relevant papers.

From Causal Interaction to Mechanistic Interaction Waterloo, ON, Canada
Topic: Causal Inference and Epidemiological Studies, University of Waterloo Nov 2024

- Delivered a graduate-level presentation on mechanistic interaction, summarizing findings and providing discussions on relevant papers.

RESEARCH EMPLOYMENT

Graduate Researcher Waterloo, ON, Canada
Department of Statistics and Actuarial Science, University of Waterloo Sep 2024 – Aug 2025

Supervisor: Dr. Changbao Wu

- Research Project: Imputation-based approaches to missing-by-design data in causal inference
- Investigated imputation methods (regression, nearest neighbor) for handling missing-by-design data in the potential outcomes framework of causal inference, comparing with existing methods including propensity score methods and inverse probability weighted methods. Various data settings were considered.

VOLUNTEER EXPERIENCE

Campus Tour Leader (Open House) Waterloo, ON, Canada
University of Waterloo Mar 2025

- Led campus tours for prospective students and visitors during open house events.

AWARD AND HONOURS

- International Master's Award of Excellence 2024 – \$7,500
- W.F. Forbes Entrance Award 2024 – \$1,000
- President's Scholarship of Distinction 2019 – \$2,000
- The Governor General of Canada Academic Bronze Medal 2019
